

# LUCIA CHESTA

» **Study:** Oceanographer and Mechanical Engineer with orientation in data analysis

## »» About me

I am passionate about research, and I am looking for an internship that will help me enhance my career by gaining valuable experience in my field of interest. I aspire to lay a strong foundation for my professional journey and have a particular interest in emotional education and interpersonal skills. Additionally, I am eager to develop my career abroad, gaining experience by working in an international environment.

» **Profile:** I have highly developed soft skills, which allows me to foster a positive work environment and approach my tasks efficiently and effectively.

## »» Education

2017 - Present - University of Buenos Aires  
**"Licenciatura" in Oceanographic Science (equivalent to a Master)**

- » Data science: management, data processing in python.
- » Development of theories, programs that allow you to explain and replicate the phenomena observed in the field.

2020 - Present - University of Buenos Aires  
**Mechanical Engineering**

- » Industrial automation. Mechanical design, understanding of plans. Management of IRAM norms.
- » Base of physics, chemistry, algebra, electronics, economics, programming, stability, probability.

2017 - 2019 - Wall street institute  
**English Course**

- » Development of reading, comprehension, speaking and writing of English. Level B2
- » Advanced level in reading and listening. Intermediate level in speaking.

## »» Field work

December 2022 - March 2023 - Argentine Antarctic Institute  
**Data Analysis Intern in Antarctica**

- » Data collection at sea, instrument configuration, analyze data, generate data reports
- » Oceanographic team assistant in Base Carlini for 3 months

## »» Work experience

September 2024 - Present - Voith Paper  
**Process Engineering Intern**

- » Machinery survey, delay analysis, lay-out development
- » Company specialized in mechanical engineering

August 2023 - September 2024 - Pirelli  
**Quality Control and Curing Intern**

- » Development of machine status reports, analysis of scrap data
- » Organization of training, weekly talks to improve efficiency

2024 - Present - University of Buenos Aires  
**Mechanical, Naval and Electronic Engineering Tutor**

- » Guide students in their degree, help them with procedures, organize events so they can get to know each other, generate links between students and the university
- » Organization, communication and accompaniment

2021 - 2023 - University of Buenos Aires  
**Science communicator in the school of science**

- » Talks, information about science and the career are given. Provide scientific information regarding my career.
- » Video editing, Community manager.

## »» Skills

- » **Latex:** High level
- » **Python:** Intermediate level of python, data science
- » **Diving:** SSI World Diving Certification.
- » **Cad:** Good level of autocad management
